

Praniti Lalit Khurana

Strategy, American Express | IIT Madras | CFA Level 1 cleared

Bengaluru, India • pranitikhurana202@gmail.com • LinkedIn

Education and Certifications

Indian Institute of Technology, Madras — <i>Chennai, India</i> <i>B.Tech in Metallurgical & Materials Engineering (CGPA: 8.58/10)</i>	<i>Aug 2020 – June 2024</i>
Technical University of Denmark — <i>Kongens Lyngby, Denmark</i> <i>Exchange Semester</i>	<i>Jan 2024 – June 2024</i>
CFA Institute <i>CFA Level I Passed</i>	<i>Mar 2026</i>

Experience

Senior Analyst American Express <i>Bengaluru, India</i> - Identified high-risk age-group pockets with ~80% accuracy and designed targeted line strategies, reducing exposure for this segment by 15% with minimum impact on profitability - Enhanced small-business customer segmentation across risk, expectation, and need dimensions; built a line-assignment framework that reduced high contingent liability by 20% - Refined the 3-year profitability forecasting framework for card members, improving loss-prediction accuracy by 20%, enabling more precision in initial line assignment in Mexico - Mentored 1 intern and 3 junior analysts on portfolio strategy, analytical problem-solving, and stakeholder communication, enabling them to independently own analyses and deliver results	<i>Aug 2026 – present</i>
Analyst American Express <i>Bengaluru, India</i> - Awarded Analyst of the Quarter for outstanding contributions to initial line assignment - Implemented and tracked the initial line efficiency framework that reduced contingent liability by 17% with minimal reduction in profitability drivers like spend and interest revenue - Enhanced monthly MIS reporting by introducing segment-level cuts and credit revolve metrics, enabling a more granular, deep-dive view into portfolio performance drivers - Sized the impact of upstream model changes (risk and line models), driving precision in credit line assignment and led the implementation of these framework updates for Canada	<i>June 2024 – Aug 2026</i>
Management Trainee (Received Pre-Placement Offer) American Express <i>Bengaluru, India</i> - Analyzed financial statements across diverse industries to identify key credit risk indicators, translating findings into actionable inputs that strengthened underwriting decision quality - Evaluated multiple underwriting strategies by leveraging financial ratios to assess credit line increase eligibility and credit health of large corporates in the United States - Proposed strategies that enabled a 40% default capture rate while suppressing only ~15% of the population, flagging risk effectively without materially affecting approval volumes	<i>May 2023 – July 2023</i>
Industrial Trainee Bharat Gears Ltd. <i>Mumbai, India</i> - Optimized heat treatment parameters across the production process to reduce grain boundary oxidation, improving overall material quality and consistency in steel processing - Evaluated 14 hardenability bands and tested advanced carburizing techniques to identify process improvements, driving a ~17% gain in processing efficiency	<i>Nov 2022 – Jan 2023</i>

Case Competitions

National Finalist, Hero MotoCorp — Top 5 of 75,000+; developed a solution based on a sensor-based ecosystem & smart helmet for rider safety	National Finalist, Maruti Suzuki — Top 5 of 6,000+; ideated on a 3-fold marketing strategy for EV adoption across India
3rd Place, Standard Chartered Ideation Challenge — Developed a strategy to expand banking access for India's underserved unbanked population	Inter IIT Tech Meet 2023 — developed AI-driven use cases and decision-tree frameworks to solve a real-world business problem
